MARYWOOD CAMPUS UPDATE – February 23, 2023

The project to renovate our former motherhouse into affordable housing for seniors will begin soon! We can't tell you exact dates, but late winter/early spring is the target. It will impact functions of life and work for Sisters and employees. And we want to work together to begin preparing for this major construction project coming onto Marywood Campus.

Highlights:

- We have been told that a fence will be installed around the construction zone. It will surround the entire former Motherhouse -- with access points for construction traffic and construction work zones.
- The tunnel between buildings will be closed during construction, although we can anticipate it re-opening when the building re-opens.
- We will have adjustments in where we park.
- We will make time for future conversations to intentionally plan how to support interactions between buildings.

Parking & Access – (please also reference map on page 2)

- Parking lots A and B on either side of Aquinata are employee lots. Our suggestion is for Aquinata employees to park in B, with overflow available in A as needed. The lot in front of the atrium at AH is for Sisters and guests. Marywood employee parking is Lot A.
- Supervisors and employees: we anticipate in future we will be designating some spaces closer to the building special use and permit parking. Please see Lynne in HR about special parking considerations.
- We anticipate in future we will be designating some spaces closer to the building special use and permit parking. Please see Lynne in HR about parking considerations.
- The northwest lot (D) nearest to Whistle Stop is for Whistle Stop staff and parents. Please do not park there.
- Sisters living at Benincasa will use the drive from the new Marywood to access their garage and parking area.
- The drive off Fulton Street is a main construction entrance. Please avoid this area.
- St. Francis Sculpture Garden will be affected. The stairwell at Glendale Street will be closed. Visitors can enter the path along the drive off Fulton; those with cars can enter and park on the west side of the drive. Limited parking is also available at south end of the Marywood lot.

We appreciate your patience and thoughtful contributions. We understand some of these changes will impact some roles more dramatically than others. We hope by sharing information with you early, you will have time to plan. Please communicate with your supervisor or department director any concerns or questions. This will help us prepare future communications and meetings. We will keep you informed of new developments affecting us all.
